

SAMEERA MANAF

Full Stack Developer (React + Django)

+971 58 513 3244 | sameeramanaf55@gmail.com | github.com/sameera-kp | linkedin.com/in/sameera-manaf-dev

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable, production-ready web applications using React, Next.js 15, Python, and Django REST Framework. Skilled in developing end-to-end solutions -- responsive frontends, Redux Toolkit state management, and secure REST APIs with PostgreSQL. Experienced with real-time features (WebSockets), FastAPI, and GraphQL, with a track record of improving application performance and delivering features in Agile teams.

TECHNICAL SKILLS

Frontend: React.js, Next.js 15, JavaScript, TypeScript, HTML5, CSS3, SCSS, Bootstrap

UI & State Management: Material UI (MUI), Tailwind CSS, Redux Toolkit, Context API, Framer Motion

Backend: Python, Django, Django REST Framework (DRF), FastAPI, REST APIs, GraphQL, WebSockets

Databases: PostgreSQL, SQLite

Tools & Platforms: Git, GitHub, Vercel, Postman, VS Code

EXPERIENCE

Full Stack Developer Intern (React + Django) -- Uppcode Software Labs *June 2025 - Present*

- Delivered a live CRM platform as full stack developer, building the React/Next.js frontend with a Python/Django REST Framework backend.
- Integrated REST APIs across Deals, Leads, Contacts, and Companies modules with filtering, pagination, and token authentication.
- Improved data loading speed by 20% through API optimization; increased performance and SEO scores by 25% using Next.js SSR and code splitting.
- Collaborated in an Agile team of 5+ developers, consistently delivering sprint goals ahead of schedule.

PROJECTS

CRM Live Project -- Full Stack CRM Platform

Next.js 15, React, TypeScript, Redux Toolkit, Material UI, Python, Django REST Framework, PostgreSQL | github.com/sameera-kp/CRM_APP

- Built a full stack CRM covering Deals, Leads, Contacts, and Companies with a Next.js/React frontend and Django REST API backend.
- Developed REST APIs for CRUD operations, stage/owner/city/date filtering, pagination, and CSV import/export.
- Implemented Redux Toolkit slices with async thunks; built reusable MUI tables, drawer forms, and filter components.
- Resolved full stack issues including React StrictMode duplicate API calls, undefined Redux state, and Django migration errors.

Atelier -- Luxury Interior Design Studio Web App

Next.js 15, React, Tailwind CSS, Framer Motion, Responsive Design |

Live: atelier-website-ten.vercel.app

GitHub: github.com/sameera-kp/atelier-website

- Designed and developed a high-end, responsive portfolio website featuring dynamic video banners, custom image sliders, and an interactive Before/After renovation showcase.
- Implemented smooth UI animations using Framer Motion and optimized layout styling for a seamless experience across mobile and desktop.
- Integrated responsive galleries and modern UI components adhering to strict luxury brand aesthetic standards.

Loop & Bloom -- Crochet E-commerce Website

HTML5, CSS3, JavaScript, Responsive Design, LocalStorage, WhatsApp API |

Live: loop-bloom-website.vercel.app

- Built a mobile-first e-commerce website with product catalog, search, category filtering, product details, cart, wishlist, and a custom-order form.
- Implemented persistent cart and wishlist using LocalStorage and a WhatsApp-based ordering flow for direct customer communication.
- Added responsive navigation, micro-animations, and product image interactions for a polished brand experience.

Expense Tracker -- Personal Finance Web App

Python, Django, Django REST Framework, SQLite |

github.com/sameera-kp/expense-tracker-django

- Built a full stack personal finance app with expense categorization, monthly summaries, and CRUD operations via REST API.
- Designed Django models and serializers for managing user expenses and financial records.

CERTIFICATIONS & ACHIEVEMENTS

- Successfully built and deployed full stack web applications, including a live CRM platform used in production.
- Gained end-to-end full stack experience across the React/Next.js frontend and Django REST API backend.
- Delivered production-ready features consistently as part of an Agile development team.

EDUCATION

Full-Stack Developer Training -- Upcode Software Labs *2025*

Plus Two -- SIACHSS, Ummathur *2009*
